#### **EXPLANATORY NOTES**

\*\*AER (Annual Equivalent Rate) – This represents the annual rate effectively received by the customer if interest at the gross rate applied during a year remained in the account and itself earned interest. As every advert for a savings product, where a rate is displayed, will contain an AER, you will be able to compare more easily the return you can expect from your savings over time.

\*Gross – The rate of interest payable without the deduction of lower rate tax to eligible non tax payers.

+ Link – This represents the difference between Bank of Scotland Base Rate and the gross rate currently payable.

Base Rate is currently 5.00% (effective from 10th April 2008).

Interest Rates are subject to variation.
